Economic Theory Social Control American Economic Review Cognitive Problems vs. Conflicts: Economic Theory and Ideology - Jstor Finally, Ideology has complex effects on beliefs. As expected, the relatively liberal respondents are relatively more skeptical about economic theory in the Economic ideology. An economic ideology distinguishes itself from economic theory in being normative rather than just explanatory in its approach. It expresses a perspective on the way an economy should run and to what end, whereas the aim of economic theories is to create accurate explanatory models. Mr Dobb examines the history of economic thought in the light of the modern controversy over capital theory and, more particularly, the appearance of Sraffas.
