Terror Out of Zion: Irgun Zvai Leumi, LEHI, AND THE PALESTINE UNDERGROUND, 1929-1949 Historical Dictionary of Zionism - Google Books Result Menachem Begin's Irgun and Zionist Revisionism: 1944-1948. The Irgun was a Jewish paramilitary organization that operated in Palestine during the period leading up to Israeli independence. It was obligated both to create independent Arab states on former Palestinian territories and to work towards the establishment of the Jewish state. It was founded in 1920 by Vladimir Jabotinsky as the Herut movement. The Irgun was a continuation of the movement that had been active in the early 20th century, specifically the Weizmann-Meir group. The Irgun's tactics included terrorism, sabotage, and continued harassment of the British during their mandate over Palestine. The Irgun operated in the underground and was not recognized by the British as a legitimate political body. The Irgun's activities included regular attacks on British forces, as well as on Arab citizens and institutions. The Irgun was ultimately responsible for the planned massacre at Deir Yasin in 1948, an event that has become one of the most controversial and debated incidents in the history of the Middle East. The Irgun was dissolved in 1942 and its members joined the Haganah, a military organization that later became the Israeli Defense Forces. The Irgun's legacy and its role in the establishment of Israel are complex and continue to be debated by historians. The Irgun's operations included several important battles, such as the Battle of Tel Aviv in 1947 and the Battle of Petah Tikva in 1948. The Irgun was also responsible for the bombing of the King David Hotel in 1946, which killed more than 90 people. The Irgun's actions were not limited to violence against the British, but also included attacks on Arab civilians and institutions. The Irgun's activities were documented in several books, including the official Irgun history, *Jabotinsky: The Man and His Ideas* by Israel Shamir, and J. Bowyer Bell's *Terror Out of Zion: The Fight for Israeli Independence, 1929-1949*. The Irgun's activities and its role in the establishment of Israel continue to be debated by historians and the public. The Irgun's tactics and strategies are often seen as emblematic of the broader struggle for Arab rights and Palestinian self-determination in the region. The Irgun's legacy is complicated and its role in the establishment of Israel is still being evaluated.
